

# aranet 4

Wireless indoor  
air monitoring sensor

# Be aware of the air you breathe!

**CO<sub>2</sub>** buildup can decrease your cognitive ability by **50%**

Read business case  
<https://blablalinks.com/faremgojr>

# Solution is aranet4

An indoor wireless sensor for  
effortless monitoring of:

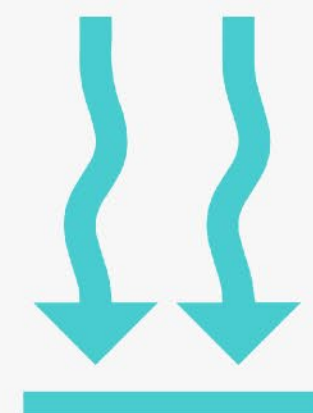

CO<sub>2</sub>

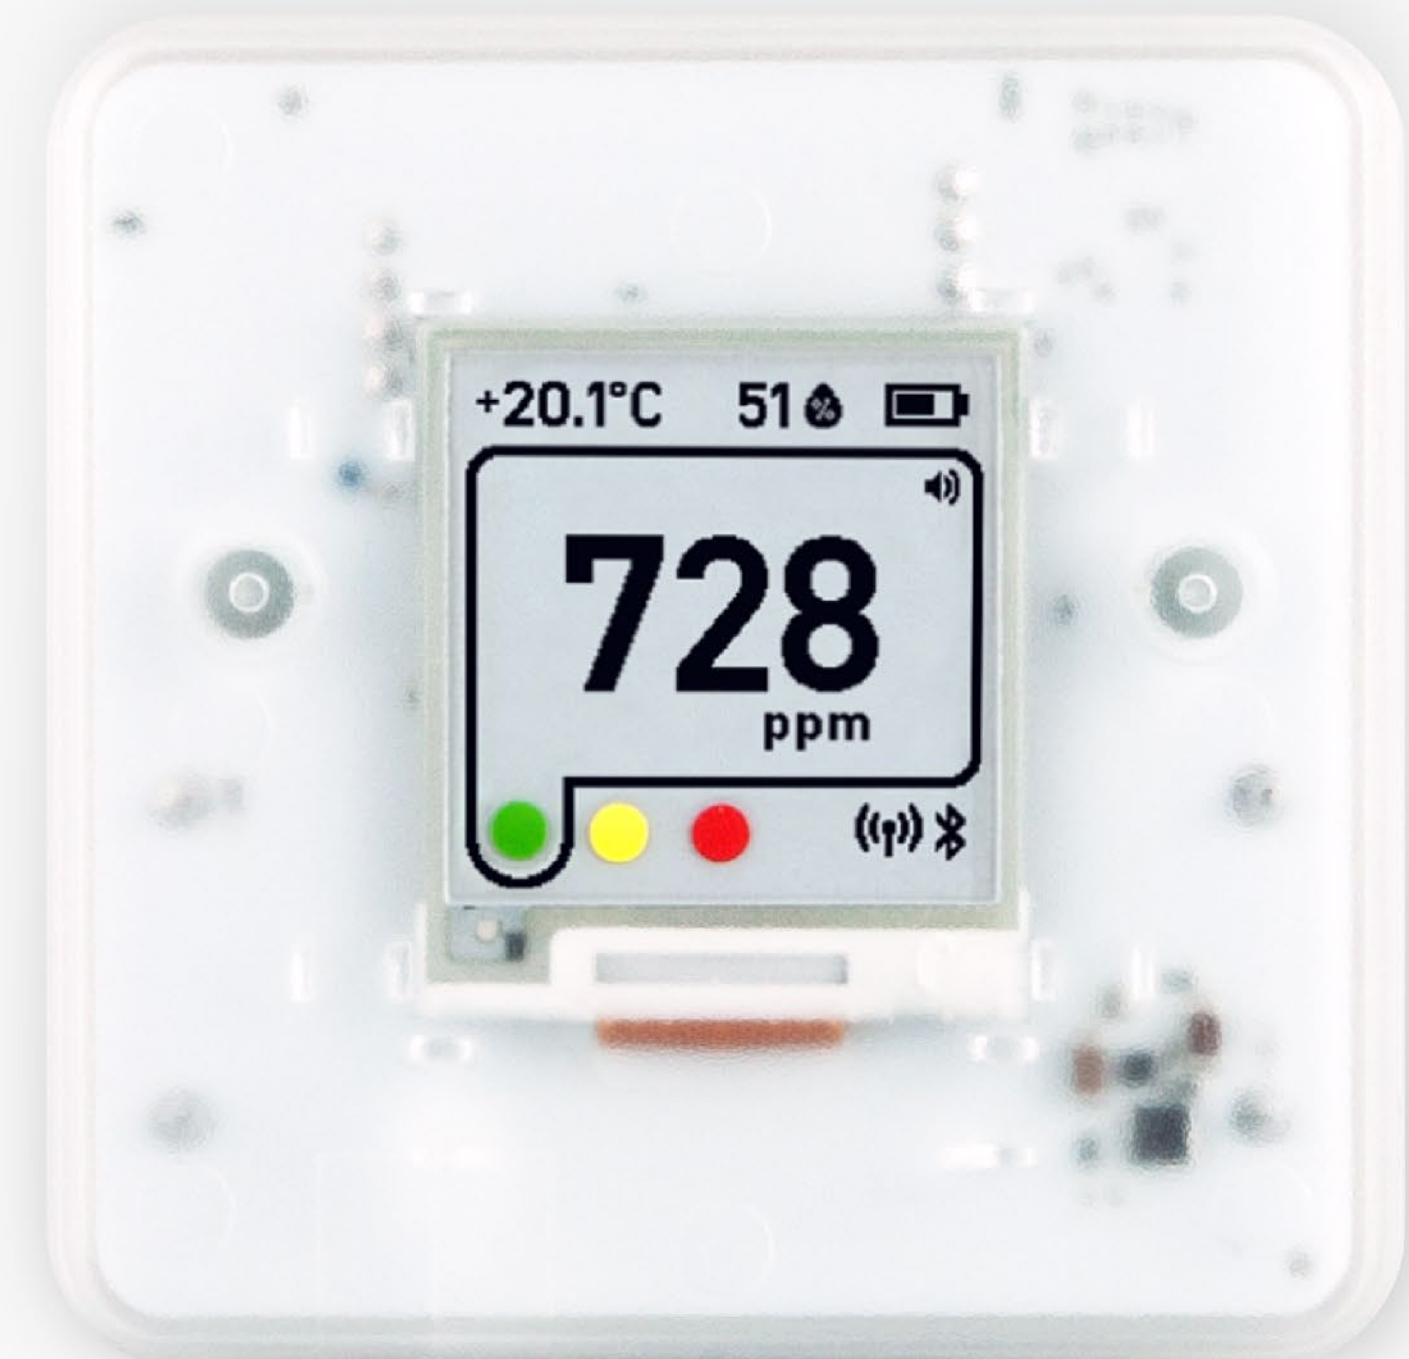

Temperature

Relative  
Humidity

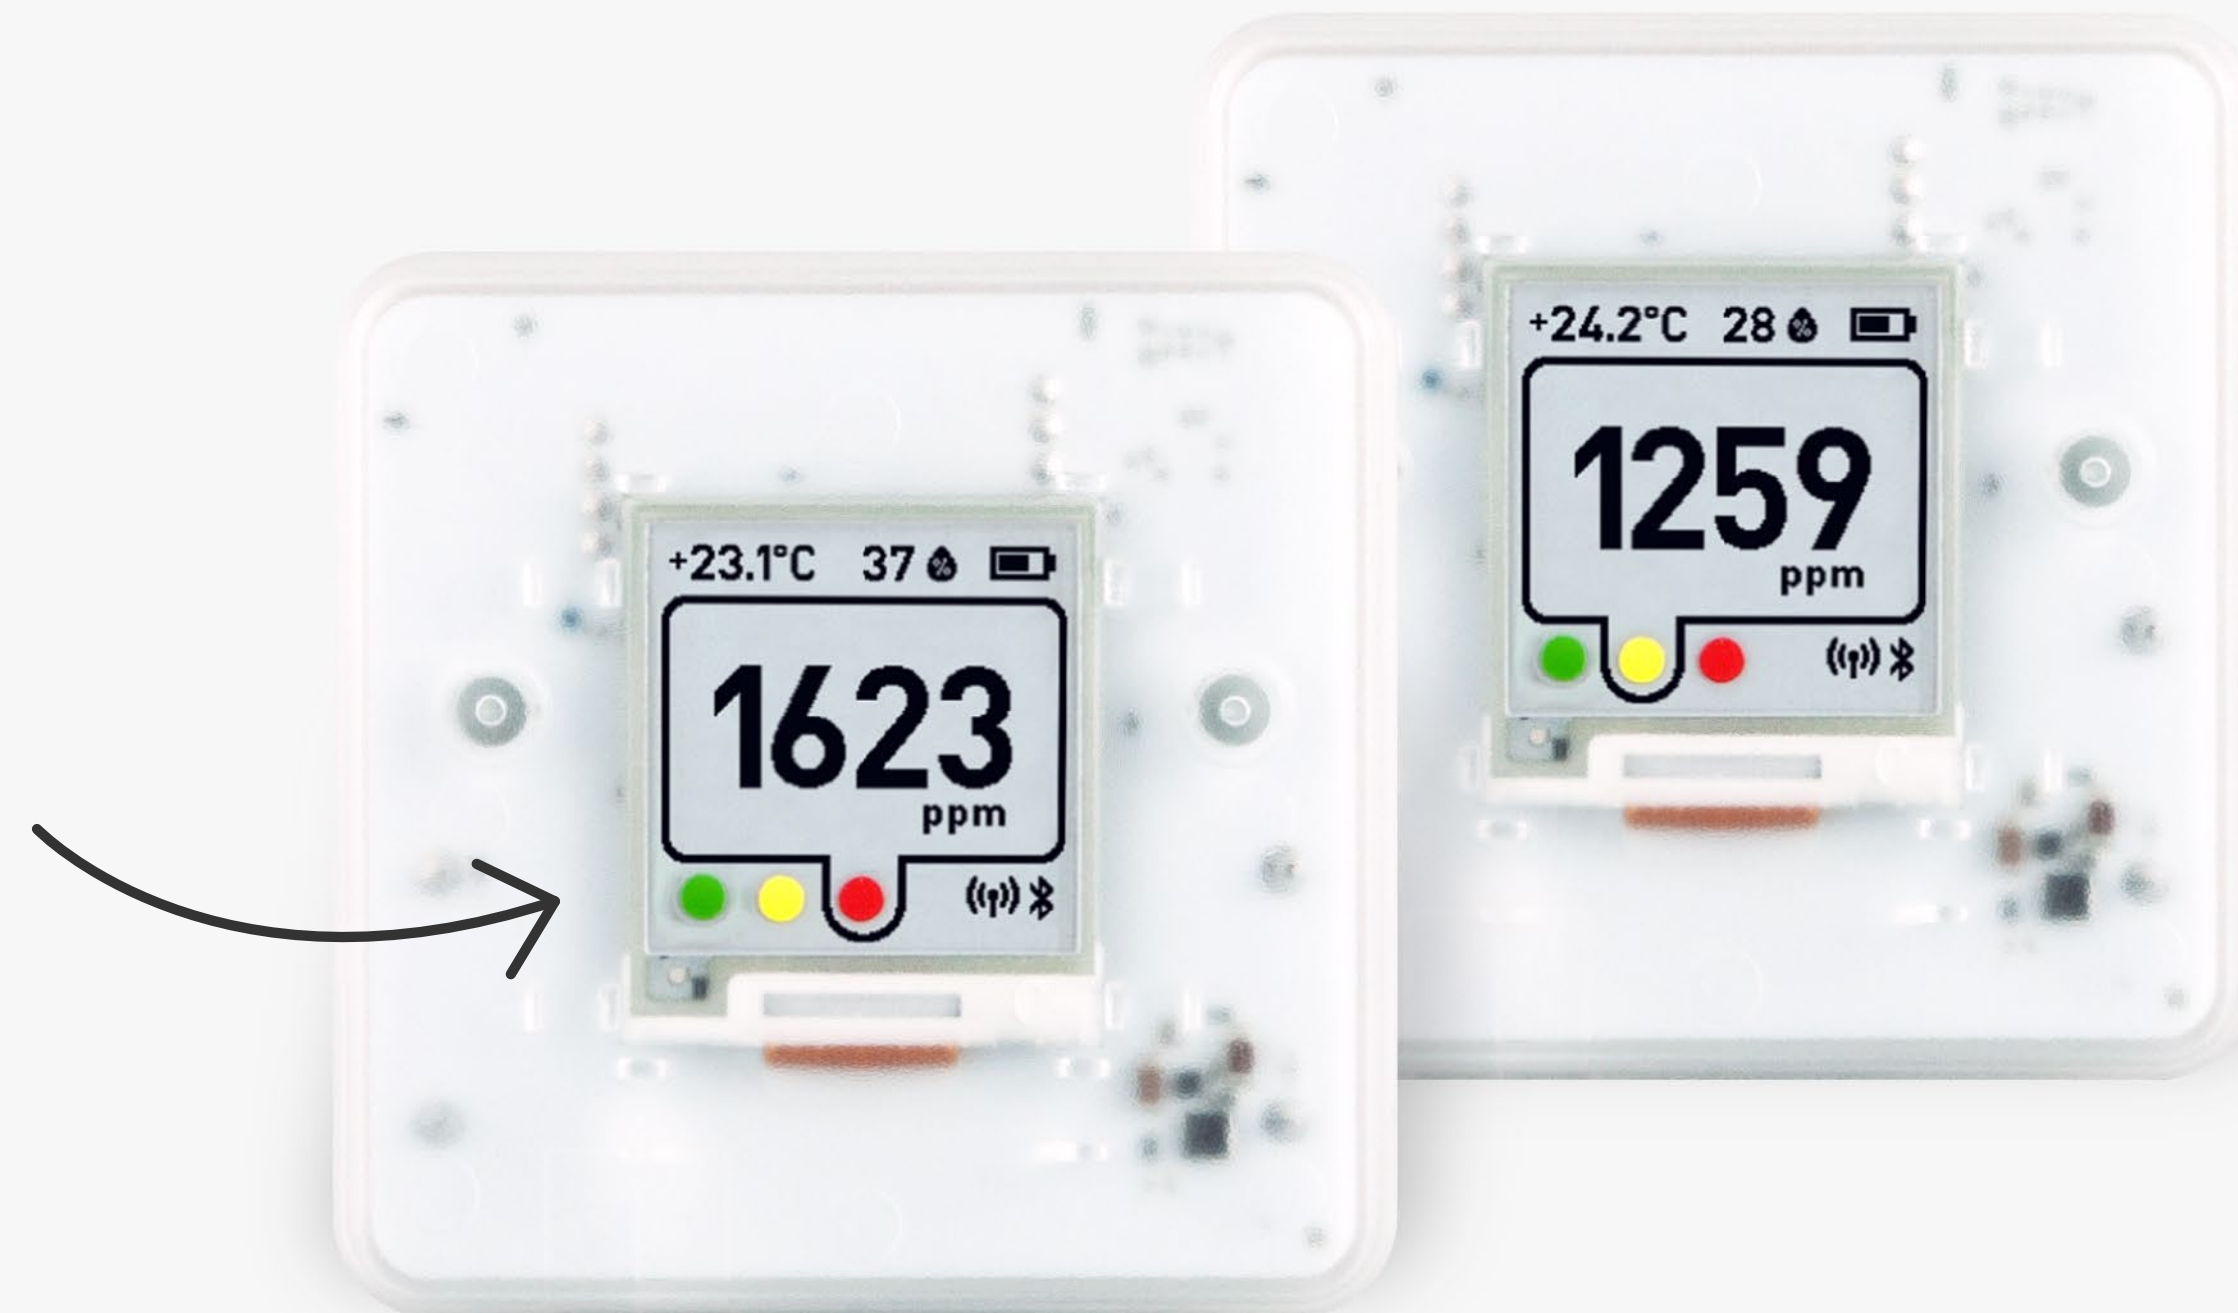

Atmospheric  
Pressure

# Directly see air quality on screen

- Ultra portable
- Early warning
- Easy to use

# For use in hospitals

Use Aranet4 in multiple rooms! Up to 100 Aranet4 devices can be placed throughout your hospital and wirelessly connected to an Aranet PRO base station ensuring healthy climate monitoring on an industrial level.

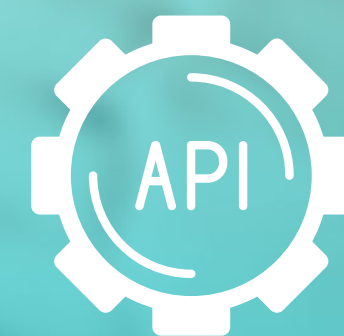

Connect up to  
100 devices in  
one network

Centralized  
monitoring

24/7 access  
to data

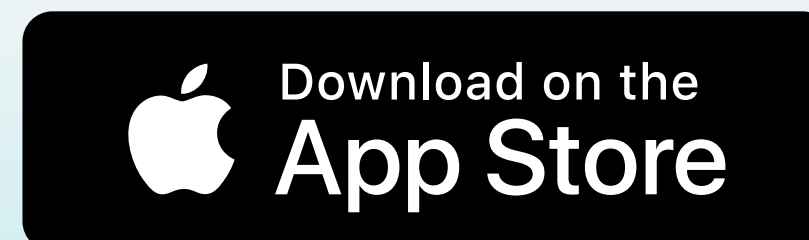

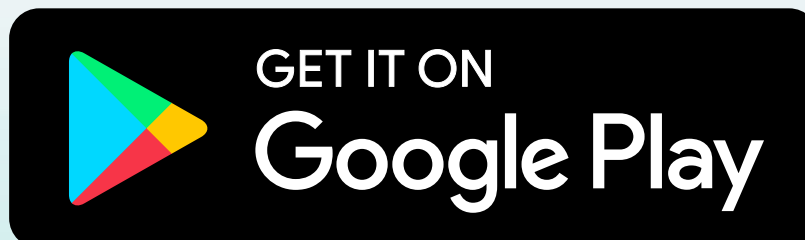

API  
integrations and  
configurations

# Mobile app included

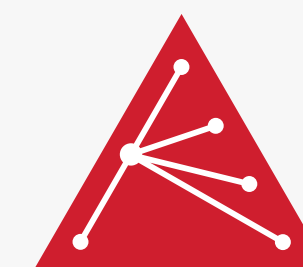

Follow the device from your mobile! Aranet4 has a handy smartphone app created for historical data access, atmospheric pressure monitoring and advanced device configuration.

# Thank You!
